High Blend Ethanol Fuels E 85

With respect to our experience with High Blend Ethanol Fuels E 85 in Sweden and Germany we declare that the ELAFLEX standard components listed below are suitable for use with E 85.

The products in particular:

- Elaflex Slimline hose assemblies to EN1360
- Elaflex Vapour recovery Coax hose assemblies to EN13483
- ZVA Slimline nozzles for petrol, inclusive of the swivel assembly
- ZVA Slimline vapour recovery nozzles
- Elaflex nozzle safe break couplings
- Elaflex pump break couplings
- ZAF 'splitter' connectors.

The declaration implies that the E 85 used in Sweden and Germany is in accordance with the CEN workshop agreement CWA15293.

Components might not remain compliant where excessive water is introduced into the fuel and the pump system is not in operation for a longer period.

Hamburg, September 2007
