

Manufacturer Declaration

ELAFLEX - Gummi Ehlers GmbH
Schnackenburgallee 121

D - 22525 Hamburg
Germany

REACH Regulation (EC) No 1907/2006 (Registration, Evaluation, Authorisation and Restriction of Chemicals) of the European Parliament

ELAFLEX supplies industrial goods like hoses, couplings and nozzles but no chemicals.

The European REACH Regulation applies to substances manufactured or imported into the European Community in quantities of 1 ton per year or more.

For this reason ELAFLEX products are not subject to the REACH Regulation.

The ELAFLEX suppliers for components and products made of rubber or plastic confirmed that with the exception of Rubber Expansion Joints type ERV- GR (please see our document -REACH Lead compounds- of December 2013) their material is free of substances of very high concerns (SVHC) under the REACH regulation, respectively are below the REACH threshold of 0,1 %.

Hamburg, January 2014

Achim Aehle
(Technical Managing Director)
